

‘SWACHH BHARAT ABHIYAN’ AN INITIATIVE BY THE GOVERNMENT OF INDIA, TO ENSURE TOTAL CLEANLINESS ACROSS THE NATION.

In our 50+ years in the business, we have achieved end-to-end solutions for waste plastic which are currently being discarded in bulk quantities every day. With a proper training module in place in respect to collection, segregation, bailing, weighing, recycling and processing of such waste from streets, we are proud to be one of the companies actively involved in the ‘Swachh Bharat Abhiyan’ an initiative by the Government of India, to ensure total cleanliness across the nation.

WE'RE THE TOTAL WASTE MANAGEMENT SPECIALISTS

TSPI IS AN APPROVED PRO AGENCY

CIRCULAR ECONOMY

Leading the way in Plastic Waste Recycling for 5 decades. At Shakti Plastics Industries, we feel we are responsible to manage plastic waste in the best possible way so that it causes least damage to Mother Earth and the ecosystem. And we are rightly on our way to minimize the carbon footprints by recycling plastic, while increasing our footprints across the world!

Incepted in 1969, The Shakti Plastics Industries is a Mumbai based company that recycles all types of plastic waste, and one of the leading recyclers of polymer waste in India. Established by Mr. Vishwanath Podaar, the company has been built over a legacy of 3 generations, spearheaded by leaders who have shown relentless passion and responsibility towards building and sustaining a clean and safe environment for our future generations as well as for Mother Earth.

For the past 5 decades, Shakti Plastics has been recognized widely as a pioneer in the field of plastic waste management that started off by manufacturing all types of reprocessed plastic granules from waste or scrap. We are responsible for collection and segregation of post-consumer plastic waste and post-industrial waste from all over India.

MINIMISING WASTE AND MAKING THE MOST OF RESOURCES

Circular Economy is where the value of products, materials and resources is maintained in the economy for as long as possible, and the generation of waste minimised. It is an essential contribution to the our country's efforts to develop a sustainable, low carbon, resource efficient and competitive economy.

Eco-design means the integration of environmental aspects into product design with the aim of improving the environmental performance of the product throughout its whole life cycle including procurement, manufacture, use, and disposal.

WE RECYCLE ALL GRADES OF PLASTIC NAMELY PP, HDPE, LDPE, ABS, HIPS, PS, NYLON, ETC.

We normally procure these materials from industries as well as consumers. These are in different forms like article waste, lumps, regrades, aglo films, rolls, sheets, bails, etc. These materials are being converted into granules that we have. (chart of granules may be displayed below which is already with you)

ABS

- We have ABS materials for almost all applications.
- Many grades in all price range.
- It is used in automobiles, gift items, compounding sheets, toys, appliances etc.
- We even do compounding in ABS like alloys.
- We have white, black and all colours granules.
- We even have regrinds in abs.

HIPS & PS

- We supply plant waste HIPS/PS virgin off grade/loose good quality material
- EPS off grade material
- HIPS Black and Grey for Sheet and products

NYLON

- All grades and colours available
- Glass Filled 15%,25%,30% in black and grey
- Nylon 6 and 66 both we can supply.

We purchase:

- Plastic Waste & Scrap in various form, viz. Films/Rolls/Lumps/Bailed Scrap
- Regrinds
- Floor Sweeping

ALSO OTHER POLYMERS ARE AVAILBLE AS PER SPECIFICATION.

PAN INDIA PRESENCE WITH WIDE NETWORK

Shakti Plastics Industries has a tie-up with Municipal Corporation in all states where plastic waste is generated in bulk quantity. We have pan-India presence with a wide network of 40+ collection centers managed through numerous collection partners located across India. A majority of our partners boast of more than 20 years of experience in the industry, with well-established connections and a great

approach in the nearby areas.

Every day, we collect both recyclable and non-recyclable plastic waste material, which are further processed at our 2 lac sq. ft. facility at Palghar and disposal of non-recyclable waste are being supplied to cement kilns, waste to energy plants, waste to roads, pyrolysis (waste to fuel), etc.
